

Table: Uno

Tools

Hex tool (included)

Blanket or towels (not included)

Parts

Tabletop: 1

Table Base: 2

Felt Strips: 6

Hex Bolts: 8

Assembly

Attach Table Bases to Tabletop

1. Lay blanket on the floor. Place tabletop on the blanket with the pre-drilled holes facing up.
2. Line up the first table base to the pre-drilled holes and insert the 4 bolts. Tighten slightly, but not completely, using the hex tool.
3. Line up the second table base to the pre-drilled holes and insert the 4 bolts. Tighten slightly, but not completely, using the hex tool.
4. Ensure the table bases are aligned and straight. Adjust as necessary before completely tightening the bolts. Tighten all bolts.
5. If you are not placing your table on carpet or a rug, attach the 3 felt pads to each metal base. One at each end and one in the middle.
6. Carefully, turn table over (preferably with two people).
